5:30 p.m.

Crowne Plaza Hotel,
Circle and I-25

Please RSVP by February
6th at 5pm to:
Abby Ortega
668-8748
ajortega@csu.org

Agbami, the largest off-shore oil rig ever built, is anchored to the ocean floor 68 miles off the coast of Nigeria. It began production on July 29, 2008 and is expected to reach 250,000 barrels per day of crude oil by the end of 2009. The Agbami well field has recoverable volumes of an estimated 900 million barrels of crude oil. Please join us on February 13, 2009 as Mr. Vance Valades, one of Agbami's principal engineers, will present on this engineering marvel during the 2009 Engineers Week kickoff banquet.

The banquet buffet is \$35.00 per person.

There will be a cash bar available.

Please note that a reservation is a financial commitment.

We have to guarantee the number of people attending the dinner. If you make a reservation and do not attend, you will be billed.
